Cubist ConfTbl Ellipse 94x47	94	47	29.5	C	CTEW9447	8181	CTEG9447	6619

### ! Notes:

Wood tops are 1.5-in thick; glass tops are 0.75-in thick.

Height listed is for wood tops; height for glass top units is 28.75-in.

Glass tops are low iron, non-tempered glass.

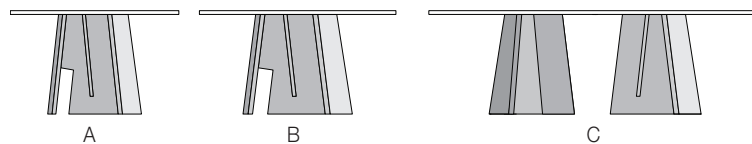

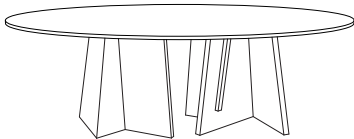

Lobby Tables have smaller top-to-base ratios and are not intended to be sat at, but instead for floral displays, magazines, food service, and other hospitality uses.

There are three base styles used in Cubist Conference and Lobby Tables.

A-style bases are single bases, used on smaller Square, Circle and Ellipse tables.

B-style bases are a scaled-up version of the A-style, used on larger Square and Circle tables.

C-style bases are always deployed in pairs and used on larger Rectangle and Ellipse tables.
