

ATHENEUM

CASEGOOD COLLECTION

TUOHY

Design: David Allan Pessa

The Atheneum Collection was the first comprehensive, fully modular offering of executive and middle management casegoods for the traditional market. All of the flexibility and interchangeability familiar to the contemporary furniture realm is now incorporated into this finely crafted collection, without loss to the classical style of the series. The result is a totally coordinated program for furniture, whose individual elements are elegant in their own right, and uncommonly effective when working together as a solution for interior plans.

Towers and Hutches are available in **two heights**.

Hutches are available with **wood doors**, or with **glass**.

Elevated on brushed nickel leg frames or in full height cases with recessed floor lip.

Hardwoods And Finishes

The standard hardwood species for atheneum casegoods and tables is cherry, available in a variety of colors. mahogany and walnut are also available as depicted below. Please consult the hardwood finish program and the price schedule for specification information. Tops and vertical faces for all casegoods and table are also available with quartered cherry borders, or with plain sliced cherry.

Pull Selections

Standard pull hardware finishes are Low Lustre Brass, Satin Black and Brushed Nickel as shown below. Other TUOHY hardware selections may be substituted on request.

Low Lustre Brass

Satin Black

Brushed Nickel
