

DANZA

COLLECTION

TUOHY

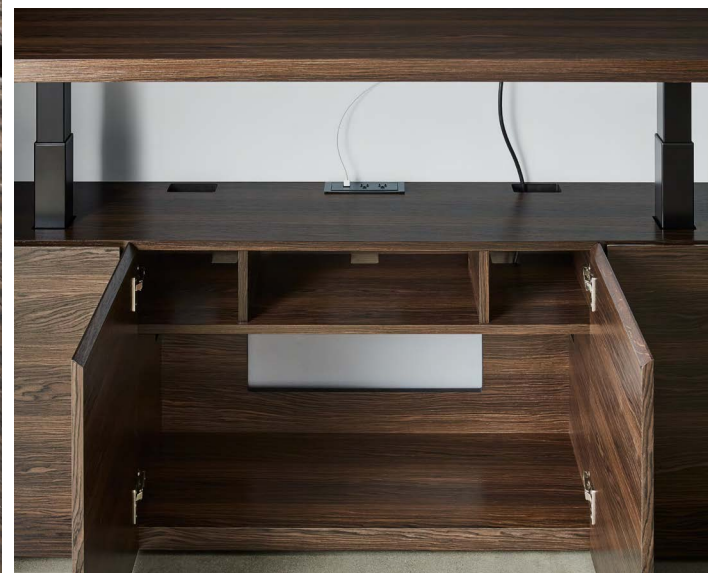

Danza Collection: Versatile. Affordable.

Danza offers a provocative alternative to the typical furniture offering by enabling inspired solutions for individualized, team and collaborative workspaces. Instead of a single table-desk/storage expression for the entire collection, Danza enables a range of statement-making configurations that appeal to a broad range of workplace environments through a universal platform serving them all.

Danza Collection

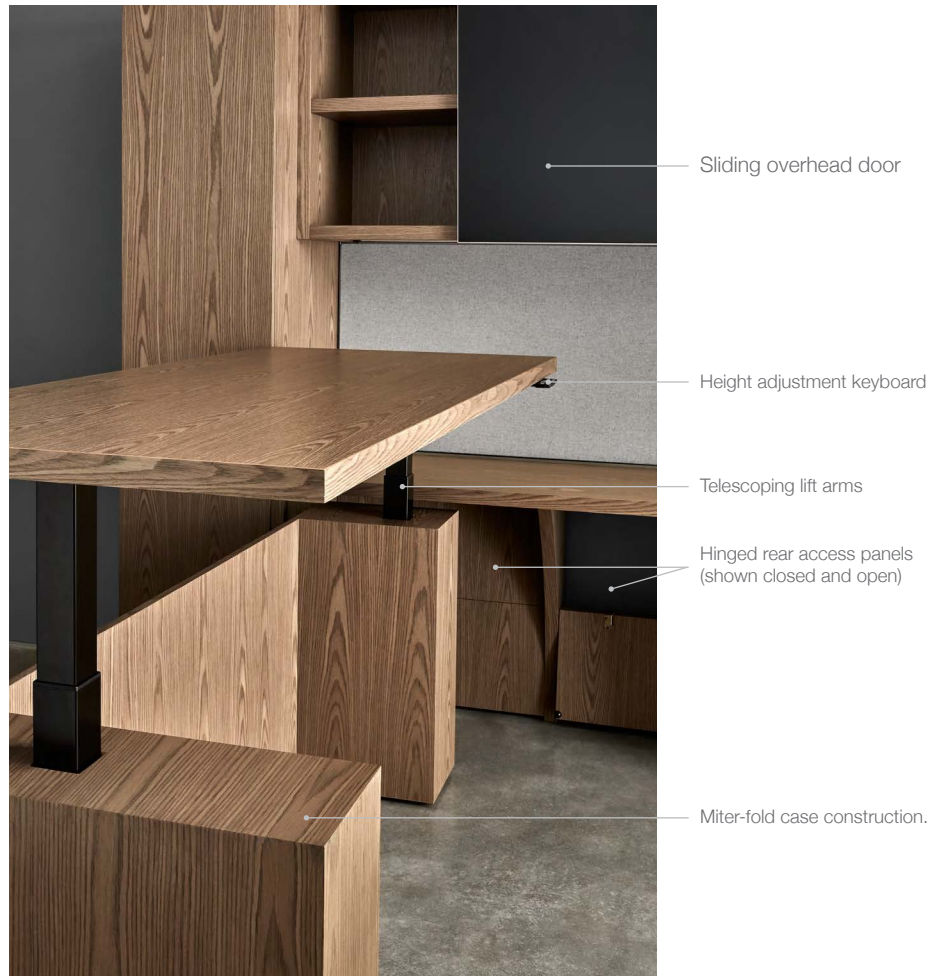

An advanced offering of modern, modular case good furniture that addresses multifunctional needs in the workplace, fusing open-plan, private office and conference dynamics through minimal forms, exquisite materials, and impeccable detailing.

There is a synergy between the minimal approach of the design aesthetic and the utilitarian nature of its functionality. Unique, highly functional components are handled in a visually graphic manner.

As a result of a **disciplined statement** of line and easily-repurposed freestanding work surfaces and storage, Danza readily adapts to a range of environments and office footprints: admin/reception, benching, team stations, individual table/desk, collaboration, and private office solutions.

ELEGANCE WORKS

Danza Collection

The driving force behind the aesthetics was minimalism. It was an exercise in reduction and simplicity, about letting materials, a reveal line, or an edge play as important of a role as the surface or volume. The cantilevered gesture of the overhead storage provides a striking suspension of the product's massing.

Choose from certified wood sources. TUOHY's design/manufacture processes follow DfE (Design for the Environment) protocols, a full life-cycle assessment method for minimizing environmental impact.
