

DUENDE

TABLES

TUOHY

Duende: Minimalist form. High functionality.

A broad palette of materials.

Power-data, with discreet options.

ELEGANCE WORKS

Duende Table Collection

Design: METRICA

Duende is a table designed for conference and informal collaborative meetings. It includes two versions, the seated and the standing, conceived to let people work in a more informal way. Duende design emanates from a set of iconic press-curved aluminum bases which support a range of self-structural tops of different dimensions, accommodating many configurations and providing ample workspace.

Contemporary office layouts and architectural environments demand products to be responsive and flexible while retaining a strong aesthetical coherence. Duende's materiality is rich: tops are available in wood, stone, quartz, solid surface or glass; bases can be powder coated, anodized or bronzed. The curved metal cover used to hide cables in the sub-top and base areas is an iconic element itself.
