

MASSIF

CONFERENCE TABLES

TUOHY

**Massif Table.** Bold and balanced. Shown with a Karo Collection credenza.

Style and Performance.

Duplex outlets and data connector modules  
May be imbedded into subtop aprons to  
Maintain a top surface without obstruction.

Power-data supply ascends along one  
of the legs from floor conduit.

Power-data supply may also be  
provided on the conference top with  
surface modules and troughs.

Top surfaces may be wood,  
glass, acrylic solid surface,  
natural stone, quartz, faux leather  
and HPL.

Optional inset tops of impervious  
materials provide opportunities  
for hospitality service.

Wood veneer tops may be laid  
up in sketch-face patterns.  
See the following page.

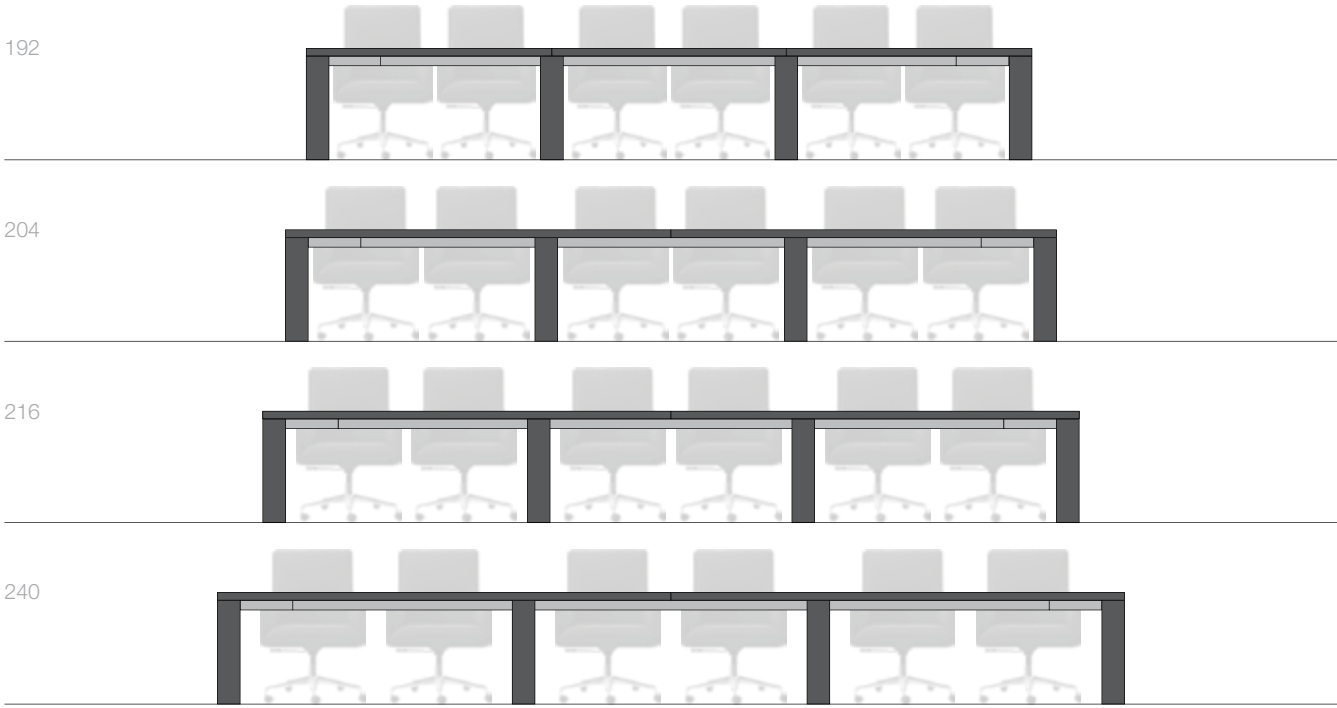

Tops are 2 inches thick.

Legs are situated on the table  
perimeter, providing unobstructed knee,  
leg and chair movement below the top  
as well as a slight separation of users.

Massif Table Scope

Legs are wood. Choose from a broad palette of top materials.

Sketch-Face Wood Veneer Layouts

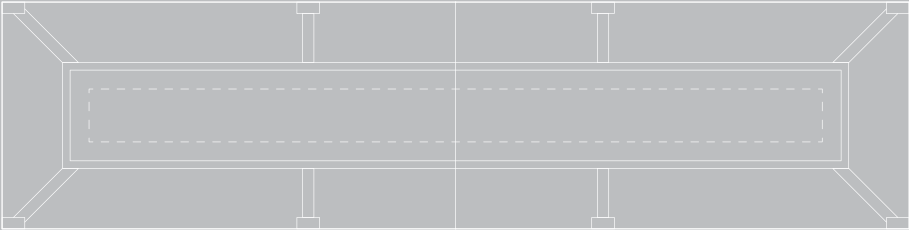

Standard wood veneer layout is grain long.

Optional Top Inserts

Structural Plan The structural chassis facilitates use of varied top materials.
