PRICES

All prices are list, F.O.B. Chatfield, Minnesota, and are subject to change without notice. We reserve the right to change quotation prices prior to acceptance by the buyer. Quotation prices must be accepted within 30 days or re-submitted for dating and approval. Prices do not include storage, installation, taxes or tariffs. All orders are subject to a surcharge for prepaid freight—see FREIGHT, next page. **Quoted prices are subject to change based on the cost of raw materials, shipping, and/or freight at the time ordered by seller**

LEAD TIMES

The lead time on an order begins when TUOHY's Order Entry Department has verified the validity of the items ordered and has received at our manufacturing facility all COM materials supplied by others.

ORDERING INFORMATION

Specify all items by their product number, noting the quantity, finish color, tagging information and all other specifications called for within the price schedule.
The product number will prevail in the event the product number and description differ.
All orders must be in writing and shall be deemed accepted when the General Office in Chatfield, Minnesota issues a written acknowledgement. We are responsible only for agreements, commitments, and obligations authorized by an officer of TUOHY Furniture Corporation, and not for any agreement between a selling agent or other third party and the buyer.

ACKNOWLEDGEMENT

Every order will be acknowledged. Orders will be manufactured and invoiced based upon the information on the acknowledgement. If there is any discrepancy, please notify TUOHY Furniture Corporation immediately. Failure to notify TUOHY of a discrepancy within five (5) days will constitute acceptance of the order as acknowledged. All acknowledgments will contain current lead time information. If for some reason the buyer does not want it early, please list a Do-Not-Ship-Before date.

We are not responsible for delays in scheduling or failure to make scheduled shipping date due to strikes, lockouts or other labor complications, war, riots, Acts of God, fires, accidents, restraints affecting shipment or credit, reduced supply or excessive cost of fuel or raw material, delays from suppliers, compliance with Government regulations, or other unforeseen contingencies. When delays in product delivery are caused by the purchaser we reserve the right to draw up to 90% of the contract price and to charge to the purchaser any costs incurred by us.

CREDIT AND PAYMENT TERMS

Corporate policy does not allow for automatic open account terms for new customers or for customers whose account is not current. Corporate policy also prohibits credit being extended to individuals or residential accounts. New customers are required to make a deposit for the full value of the merchandise ordered. A credit application will be sent to each new customer. Credit will be established upon review of the responses given by the customer's references and will appear on future order acknowledgements.
New customers are encouraged to begin establishing a credit rating with TUOHY Furniture Corporation prior to placing an order. Our customers are responsible to provide the necessary current and accurate information. We cannot be responsible to follow up on credit references. Upon establishment of an open account, terms are Net 30. 1 1/2% per month service charge will be added to all past due accounts. Accounts that are 90 days past due will be subject to collection proceedings without any additional notice. Please inquire for a packet of Credit information and Procedures from TUOHY Furniture Corporation. Orders will not be processed for past due accounts until the amount due, including any service charges, is paid in full. Standard product orders exceeding $50,000 net will require a down payment of 33%. Custom orders will require a down payment of 50% and will not be scheduled for production until the down payment is received. A bank letter of credit may be required for any order over $50,000.

CHANGES AND CANCELLATIONS

All prices and ship dates published or quoted regard items only as specified. We reserve the right to adjust our prices and ship dates on any change in specifications. TUOHY Furniture Corporation will make every reasonable effort to stop production, scheduling shipments, etc., upon receipt of written notification of changes, cancellations, or deferments of delivery. TUOHY will assess charges to the customer for change orders, cancellations, and delivery deferments as stipulated in the following:

Cancellation Policy:
All Tuohy Furniture products are made to order. Prior approval is required to cancel any order. A cancellation fee of 20-100% will be applied based on the order status. Cancellation of special orders will incur an engineering labor fee plus the 20-100% fee based on manufacturing.

Change Order Policy:
Tuohy Furniture will make every attempt to honor any reasonable change order request provided that the request is received prior to the start of production. A minimum charge of $200 net will be applied to cover all administrative costs. There may be additional costs associated with engineering labor required to complete the change. All post-production change requests will include the $200 net administrative fee plus any applicable engineering and restocking fees.

PACKAGING

TUOHY pricing includes packing for North American shipment. Whenever possible, TUOHY will blanket-wrap your order; otherwise, all products will be packaged. Only environmentally safe packing materials are used. Large furniture pieces will be packed with wood reinforcements for added protection. For special packaging, crating or overseas shipment, please contact our Customer Service Department.

DELIVERY

TUOHY Furniture Corporation will select the method of shipment, carrier and routing. Carrier selection is solicited to provide the best service to each customer in their particular location. When all applicable charges, surcharges and freight/handling fees are accepted, shipments will be sent prepaid, FOB Chatfield, Minnesota. TUOHY Furniture Corporation's liability ends when the carrier issues a receipt to TUOHY Furniture Corporation, which is an acknowledgement by the transportation company that the shipment has been received by the freight company in good condition. Title of the goods and risk of loss transfers to the buyer. The order shall be considered complete. Prepaid freight does not change the F.O.B. status of the product and risks involved in the shipment. We reserve the right to make partial shipments. Invoices relevant to the partial shipments are payable as they fall due.

FREIGHT

All product is shipped FOB factory, and with what in TUOHY's judgment is the best carrier. All orders are acknowledged with an approximate ship date.

All orders under $10,000 List are subject to a minimum order charge of $175 net ($150 net for **GSA**). 902 Series chairs are exempt from this charge.

Non-Seating:
All orders ***not in Texas*** will be charged a freight/handling fee equal to 5% of net. Orders ***in Texas*** are subject to terms negotiated through the regional TUOHY representative.

Seating:
Freight/handling fees are charged on a regional basis, as shown in the map below.

These fees are pre-calculated and prepaid by TUOHY and added to the invoice at the time of shipment. Should additional charges be incurred by TUOHY due to delivery issues (non-dock, re-delivery, etc.) after initial billing, the customer may be liable for those additional charges.

The title of goods changes when merchandise leaves TUOHY's dock. Any subsequent freight damage and all freight claims are the responsibility of the purchaser or consigne to report to the carrier promptly upon receipt and the settle with the carrier.

TRANSIT DAMAGE AND CLAIMS

All merchandise is packed to comply with carrier requirements. All shipments must be carefully inspected for visible and concealed damage upon arrival.

Visible Damage: All visible damage or shortages must be noted on the carrier receipt and signed by the delivering driver. Do not sign the receipt until the visual inspection is complete at the time of delivery. Tuohy Requires images of the packaging prior to being unpacked; the proof of delivery (POD) must be signed damaged with the appropriate crates/pallets noted; require images of the damaged product - uninstalled- and require the product to remain uninstalled until the damage has been evaluated.

Concealed Damage: All cartons must be opened and inspected prior to signing the bill of lading. Concealed damage must be reported to the delivering carrier and TUOHY Furniture within twelve(12) days. Request an immediate inspection. Hold packaging pending the inspection. Do not move merchandise from the receiving area. We require a POD signed clear, images of the packaging showing no damage and photos of the un-installed damaged product.

Caution: When a clear receipt is obtained by a carrier, the carrier is no longer responsible for damages or shortages.
Damaged freight cannot be refused by the consignee (buyer). Processing claims for damages and shortages are the responsibility of the buyer. At no time can claims be deducted from our invoices.

STORAGE BY THE MANUFACTURER

No shipment can be postponed by the customer. TUOHY reserves the right to transfer products to storage. Such transfer to storage shall be deemed delivery to the customer and an invoice for the products will be issued at that time. Long-term storage (over 30 days) is subject to surcharge.

STORAGE BY THE OWNER

Due to the inherent nature of wood products, we cannot guarantee any product stored or set in place in an environment where temperature and humidity are not controlled. Temperatures must be maintained within a range of 50-80°F (or 10-27°C); the relative humidity must be maintained between 25 and 40%. These conditions are also recommended for human health standards.

MISCELLANEOUS

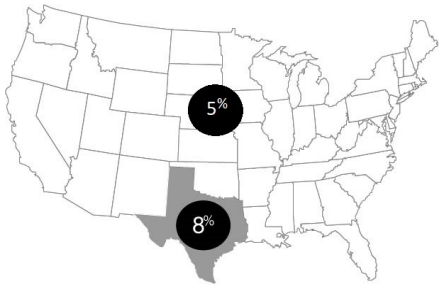

All merchandise shown in our catalog is the property of TUOHY Furniture Corporation. We reserve the sole right to manufacture and distribute it.
All patterns, tools, and designs developed for the production of any product will remain the property of TUOHY Furniture Corporation.
All published dimensions are approximate and if the exact sizes are critical, we suggest that you request actual measurements.

Price list data supersede all other specifications, whether verbal or written, and may not be altered without the written consent of an officer of TUOHY Furniture Corporation.

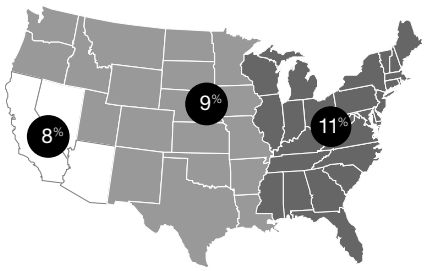

Stenographic and clerical errors on any agreement, publication, correspondence, price list, or product literature pieces are subject to correction at any time without notice.

Due to variations beyond our control, all wood and upholstery products are subject to slight variations in color, texture, and grain. Crotch-figured woods, burls, and bird's eye figured woods have a tendency to show movement in the grain because of excessive end grain exposure and random orientation of the grain. Additional veneer backing is applied to these veneers to minimize such movement. This natural phenomena can be expected and should not be deemed defective. It will not impair the performance of the product and will not be considered as a warranty issue.

As such, return of products, for whatever reason, is not practicable and not permitted. Our obligation during the warranty period is limited to repair or replacement at our option. Wood surfaces must be cleaned only with water or an ammonia-based cleaner; use of other cleaning agents will void this warranty.

This warranty becomes null and void on any goods repaired or altered by any person not so authorized by TUOHY Furniture Corporation or any merchandise which has been subject to misuse, improper storage, negligence, or accident. Natural rubber products placed directly on our wood finish may cause discoloration of the finish and will void this warranty. No warranty is made when products are acquired for personal or residential purposes. We make no other warranties, either expressed or implied as to any matter whatsoever, including without limitation, the condition of the merchandise, its merchantability, or its fitness for any particular use or purpose. All claims will be processed by the Customer Service Department.

UPHOLSTERY

Fabric and leather upholsteries are graded into all pricing for seating products. Customers may choose from TUOHY Upholstery Lines, Partnership Programs, and, Customer's Own Material (COM) or Customer's Own Leather (COL).

TUOHY Standard Upholstery Lines: Use the following pricing grades for standard upholstery offerings:

Leather:	Lena	L1
Faux-Leather:	Silex	F3

Upholstery Partnership Programs: TUOHY has partnership programs with Designtex, KnollTextiles, and Maharam such that their approved upholstery products are graded into TUOHY's pricing. Please refer to the Upholstery Partnerships PDF online (click on the image below) for evaluation and grading. Additional partner programs will be announced as they become available.

COM/COL: TUOHY accepts COM fabrics and COL leathers for consideration on its products. To verify suitability of your selection, inquire with Customer Service for information from our Fabric Analysis Program. Upholsteries not listed in this program must be submitted for approval prior to acceptance of an order; submit a 12 x 12 sample prior to entering your order. Your purchase order must include an upholstery specification that has been approved by TUOHY.

All COM/COL requirements are based on whole pieces of material; split shipments are not allowed. We are not responsible for COM/COL upholstery wear, defects, or its appropriateness.

COL leather requirements are listed in square feet and based on hides that are 40 square feet or larger. For hides below 40 square feet add 15% to the footage requirements; for calf hides below 30 square feet add 30% to the footage requirements.

Our pricing includes labor for applying upholstery and is based on applying only one type of color way per item of furniture, with no specific relationship between the pattern or weave of the upholstery material and the configuration of the item of furniture.

A surcharge not to exceed 15% of the COM price will be added when vinyl is used and/or multiple upholsteries or colorways are applied to the same product. These circumstances may create the need for additional yardage; contact Customer Service for details prior to ordering.

If additional labor is required because of unique characteristics of the fabric, a special quote will be required.

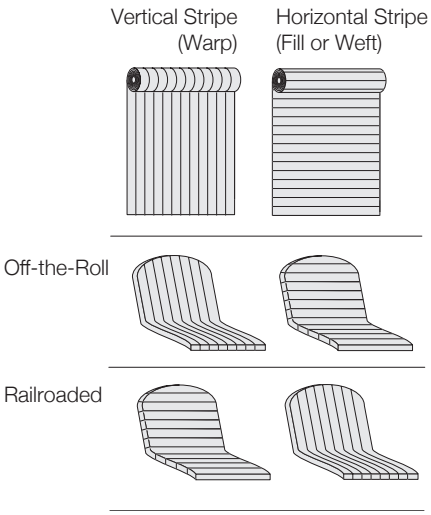

Fabric/vinyl yardage requirements and leather square footage requirements are shown throughout this price list. Fabric and vinyl requirements are based on upholstering one unit, using a single, continuous 54-in wide material, off-the-roll, with minimal (under 2-in) repeat in any direction. Inquire about lower per-unit yardage requirements on orders of more than one unit.

Verify whether individual product listings in this price schedule call for greater allowances for this additional yardage.

Patterned fabrics and vinyls may be railroaded on request but are subject to a surcharge and/or additional yardage requirements.

Seams will be required when the product application width is greater than the usable roll width, whether off-the-roll or railroaded.

Table 1: Pattern Direction

Fire Rating: All upholstered pieces pass Cal-117. For Cal-133 or Boston Fire, contact Customer Service at (507) 867-4280.

UPHOLSTERY (cont.)

Additional yardage may be required if roll width is less than 54 inches or a pattern requires matching due to repeat. The chart at right will be helpful as a general guide. Please confirm with our Customer Service Department on specifics regarding selections for your project. Changes in yardage requirement will affect upholstery grading in TUOHY Upholstery Partnership Programs.

Note that repeat is the sum of horizontal and vertical repeats; headings are listed in inches:

Yardage and Grade Adjustments

	HORIZONTAL + VERTICAL PATTERN REPEAT							
Roll Width	<2	2-10	11-20	21-25	26-30	31-35	36-40	41-45
54	0%	10%	15%	20%	25%	30%	35%	40%
51-53	15%	20%	25%	30%	35%	40%	45%	50%
48-50	30%	35%	40%	45%	50%	55%	60%	65%
45-47	45%	50%	55%	60%	65%	70%	75%	80%
36-44	60%	65%	70%	75%	80%	85%	90%	95%

Quoted delivery dates run from the date on which we receive your material. Excess fabric will not be returned or stored unless specifically requested in writing with your order; freight to be collect.

WOOD FINISH MAINTENANCE

For daily cleaning, TUOHY recommends using only warm water or a reputable, ammonia-fortified glass cleaner. Lightly apply the water or glass cleaner directly to the finish surface and wipe clean with a cotton or non-abrasive cloth, wiping in the direction of the wood grain. Polishes, waxes, and top oils are not recommended because they tend to build-up on the surface and distort the naturally clear, bright appearance of the TUOHY finish!

METALS, GLASS, STONE & HPL

MRSA Resin Satin Aluminum

> To order for casegoods (see chart above, use next larger Apron Size where needed):
1. Locate Apron Size (size of opening) and # Power-Data Outlet Pairs; e.g.: 36, 2.
2. Determine Product Number by merging the Prefix, Apron Size and # Outlet Pairs; e.g., PDAP36-2.
3. Determine List $ by adding the Apron price and the Outlets price; e.g., 460 + 1617 = $2077.

> To order for conference tables (see chart above, use next larger Apron Size where needed):
1. Calculate the table perimeter; e.g., 120w 52d table = 120 + 52 + 120 + 52 = 344 inches.
2. Determine number of oulets needed/desired; e.g., 3 + 1 + 3 + 1 = 8.
3. Determine Product Number by merging Prefix, table perimeter, and # Outlet Pairs; e.g., PDAP344-8.
4. Determne List $ by adding the sum of prices for Apron Sizes and the sum of Outlets prices;
e.g.,(660 + 517+ 660 + 517) + (2426 + 809+ 2426 + 809)=$8824
For Soft Plug option Product Number becomes PDAPSP344-8:
e.g.,(660 + 517+ 660 + 517) + (2426 + 809+ 2426 + 809)=$8824 + $89 = 8913

DRAWER CONSTRUCTION

A fine point for a quality casegood product is the inner drawer construction. Each TUOHY casegood offers you uncompromised excellence in this area as well. Drawer boxes are constructed with dovetail joinery for maximum durability. The drawer face is mounted separately to this box (i.e., five-sided construction) to maintain integrity.

Drawer bottoms are dadoed on all four sides. Slides for box drawers are rated at 100 pounds per drawer; slides for file drawers are rated at a heavy duty 150 pound load per drawer. All slides have progressive action.

Box drawers have a removable divider, adjustable when depicted (÷). File drawers have file frames for filing laterally or front-to-back, as depicted above. For Drawers for Lap Area, Drawer Pencil Tray, and Locks: See the Introduction/Terms-Options section of the Master Price List, page 12.

A fine point for a quality casegood product is the inner drawer construction. Each TUOHY casegood offers you uncompromised excellence in this area as well. Drawer boxes are constructed with dovetail joinery for maximum durability. The drawer face is mounted separately to this box (i.e., five-sided construction) to maintain integrity.

Drawer bottoms are dadoed on all four sides. Slides for box drawers are rated at 100 pounds static load capacity; slides for file drawers are rated at a heavy duty 150 static load capacity. All slides are concealed, full extension and soft-close.

Box drawers have a removable divider. All file drawers have file frames for filing laterally or front-to-back, as depicted above.

DRAWER CONSTRUCTION

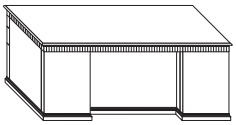

A fine point for a quality casegood product is the inner drawer construction. Each TUOHY casegood offers you uncompromised excellence in this area as well. Drawer boxes are constructed with dovetail joinery for maximum durability. The drawer face is mounted separately to this box (i.e., five-sided construction) to maintain integrity.

Drawer bottoms are dadoed on all four sides. Slides for box drawers are rated at 100 pounds per drawer; slides for file drawers are rated at a heavy duty 150 pound load per drawer. All slides have progressive action.

Box drawers have a removable divider, adjustable when depicted (÷). File drawers have suspension rods for filing laterally or front-to-back, as depicted. For Drawers for Lap Area, Drawer Pencil Tray, and Locks: See the Introduction/Terms-Options section of the Master Price List, page 12.

DRAWER CONSTRUCTION

A fine point for a quality casegood product is the inner drawer construction. Each TUOHY casegood offers you uncompromised excellence in this area as well. Drawer boxes are constructed with dovetail joinery for maximum durability. The drawer face is mounted separately to this box (i.e., five-sided construction) to maintain integrity.

Drawer bottoms are dadoed on all four sides. Slides for box drawers are rated at 100 pounds static load capacity; slides for file drawers are rated at a heavy duty 150 static load capacity. All slides are concealed, full extension and soft-close.

Box drawers have a removable divider, adjustable when depicted (÷). File drawers have file frames for filing laterally or front-to-back, as depicted above. For Drawers for Lap Area, Drawer Pencil Tray, and Locks: See the Introduction/Terms-Options section of the Master Price List, page 12.

DRAWER CONSTRUCTION

A fine point for a quality casegood product is the inner drawer construction. Each TUOHY casegood offers you uncompromised excellence in this area as well. Drawer boxes are constructed with dovetail joinery for maximum durability. The drawer face is mounted separately to this box (i.e., five-sided construction) to maintain integrity.

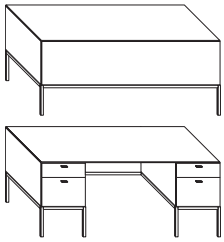

Drawer bottoms are dadoed on all four sides. Slides for box drawers are rated at 100 pounds per drawer; slides for file drawers are rated at a heavy duty 150 pound load per drawer. All slides have progressive action.

Box drawers have a removable divider, adjustable when depicted (÷). File drawers have suspension rods for filing laterally or front-to-back, as depicted. For Drawers for Lap Area, Drawer Pencil Tray, and Locks: See the Introduction/Terms-Options section of the Master Price List, page 12.

Ordering Credenza/Half-Panel Units:

Note the ProductNo and List $ that correspond to an Unfinished or Finished Back Panel. Follow the ProductNo column down until you have located the first (left-most) end panel or pedestal desired, then append the letter/number code to the original item number and add the price to the original price. Continue adding modules in this manner until your unit is complete.

The overall unit width will be the accumulated widths of all modules chosen. The overall price will be the accumulated prices and the final item number will be the original number plus all of the letter codes for the pedestals added. Maximum width under one top is 120 inches. Components are modular and may require field assembly. Finished backs may be segmented; inquire if a continuous back is required.
Verify all logistical dimensions (e.g., elevators, corridors and doorways) prior to ordering large units.

How to Order Pedestals:

Choose the pedestal format desired from each of the listings above and on the opposite page. Note the ProductNo. and List $ that correspond to the depth and back (finished/unfinished) desired. Follow the ProductNo. column down until you have located the first (left-most) pedestal desired, then append the letter/number code to the original item number and add the price to the original price. Continue adding pedestals in this manner until your unit is complete.

The overall pedestal width will be the accumulated widths of all pedestals chosen; the overall price will be the accumulated prices and the final item number will be the original number plus all of the letter codes for the pedestals added. Maximum width under one top is 120 inches. Components are modular and may require field assembly. Finished backs may be segmented; inquire if a continuous back is required. Verify all logistical dimensions (e.g., elevators, corridors and doorways) prior to ordering large units. Tops are to be ordered separately.

Gallery Ordering Information

Choose the Gallery Shell size desired from each of the listings above and on the opposite page; a shell is comprised of a top and a 42h panel. Note the ItemNo and List $ that correspond to the depth and base treatment desired. Follow the ItemNo column down until you have located the first (left-most) end panel or pedestal desired, then append the letter/number code to the original item number and add the price to the original price. Continue adding modules in this manner until your unit is complete.

The overall unit width will be the accumulated widths of all modules chosen; this dimension cannot be greater than your shell width. The overall price will be the accumulated prices and the final item number will be the original number plus all of the letter codes for the pedestals added.

DRAWER CONSTRUCTION

A fine point for a quality casegood product is the inner drawer construction. Each TUOHY casegood offers you uncompromised excellence in this area as well. Drawer boxes are constructed with dovetail joinery for maximum durability. The drawer face is mounted separately to this box (i.e., five-sided construction) to maintain integrity.

Drawer bottoms are dadoed on all four sides. Slides for box drawers are rated at 100 pounds per drawer; slides for file drawers are rated at a heavy duty 150 pound load per drawer. All slides have progressive action.

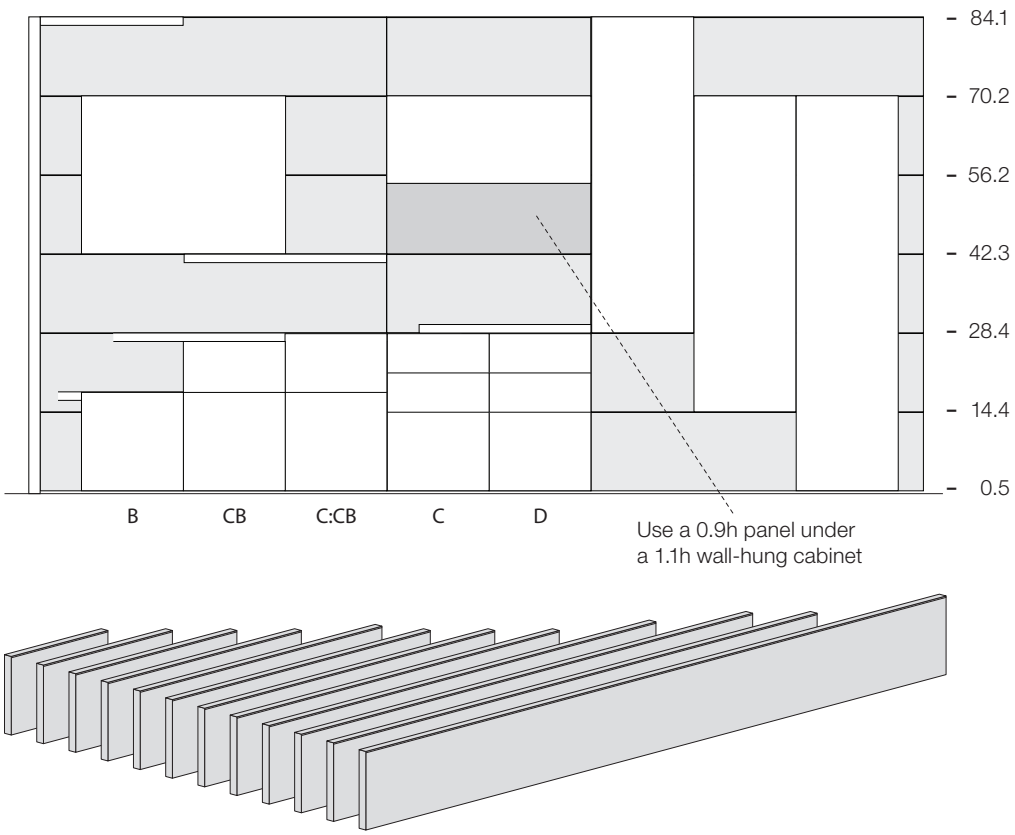

Box drawers have a removable divider, adjustable when depicted (÷). File drawers have suspension rods for filing laterally or front-to-back, as depicted. For Drawers for Lap Area, Drawer Pencil Tray, and Locks: See the Introduction/Terms-Options section of the Master Price List, page 12.

PLANNING GUIDE

The dimensional cadences of Prato allow for extensive modular interchangeability of components while preserving the built-in look of millwork case construction.

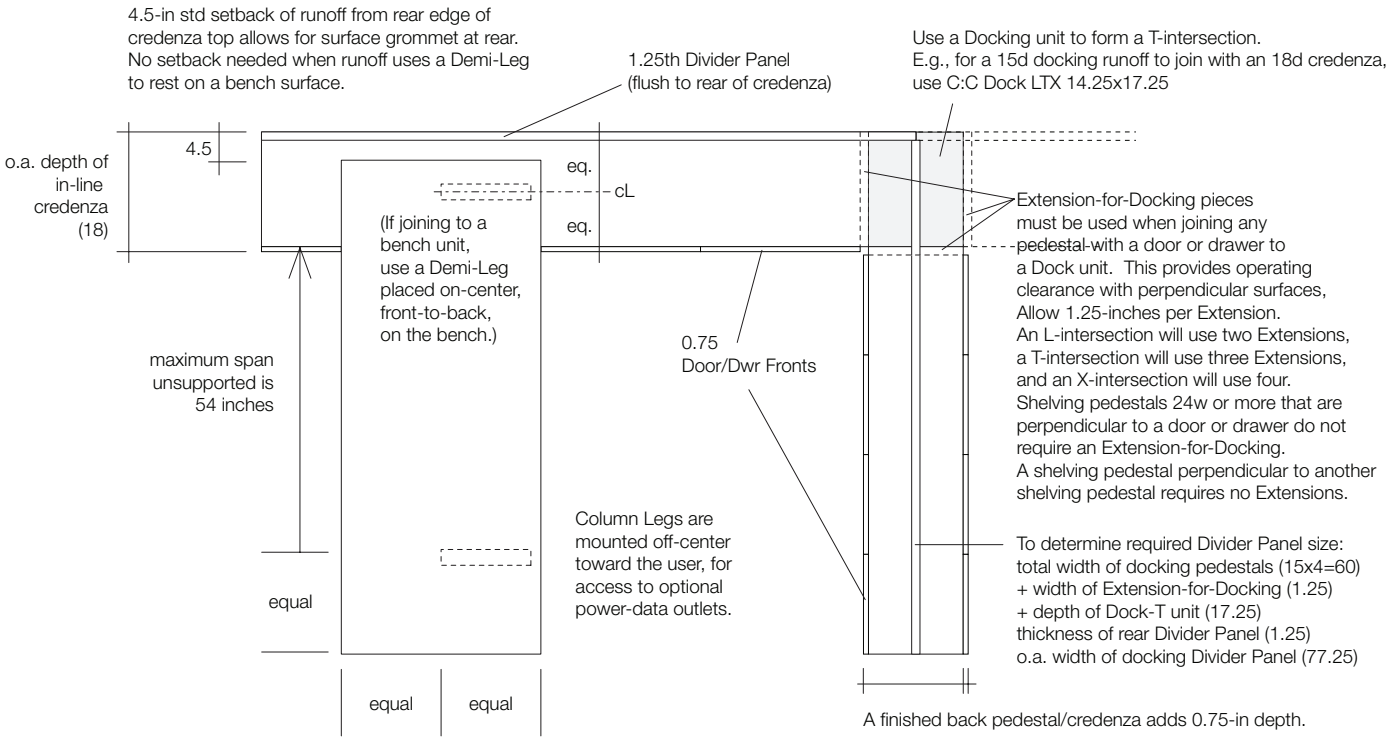

The diagram at right illustrates the alignment of many of the common furniture components as they might occur in relation to each other.

Wall panels establish a uniform and rhythmic vertical cadence, and are available in any width (using parametrics), in 6-in increments standard. Note how desk height (D) tops sit above credenza (C) tops, and how drawer/door faces overlap the credenza tops. Bench (B) modules break cadence with the wall panels but are reconciled by (CB) and (C:CB) units. Similarly, single (1.1) height overheads extend below the panel cadenza but are reconciled with 0.9 height panels.

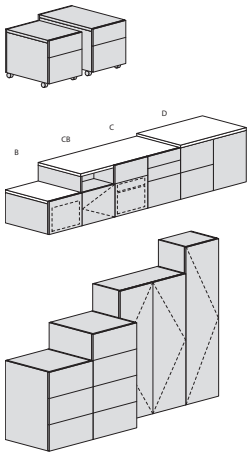

PLANNING GUIDE

MODULAR STORAGE INFORMATION

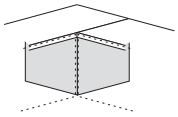

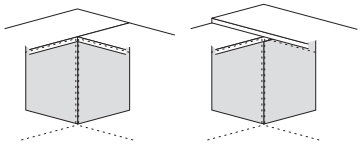

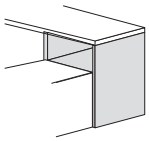

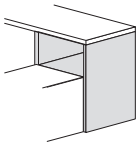

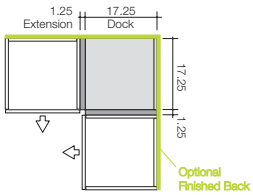

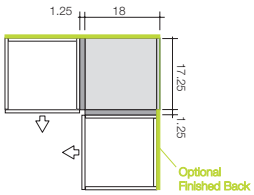

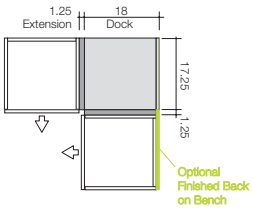

Prato storage modules are available in a range of heights/functions:
- Mobile Storage
- Bench Modules [B], 18h, for storage and bench seating; faces flush to top.
- Credenza Modules, 28.4h, for storage and top runoff support:
  - [C/B] units have an open area (XShelf) below the credenza surface.
  - [C] units have faces that overlap the credenza top.
- Desk Modules [D], 29.9h, for full-height desk and runoff storage; faces are below the top surface.
- Tower Storage at 42.3, 56.2, 70.2 and 84.1h.

All doors and drawers except sliding doors have push-to-open latches.
Tops must be ordered separately for all Bench [B], Credenza [C] and [C/B], and Desk [D] modules.
Runs of pedestals may be used sequentially without limit. Coordinate top selections as needed.
Pedestals are listed and priced with unfinished exterior side panels; option codes allow for finished sides.
Width for Back Panels and/or Wall Panels is the sum of all widths for the Spec Codes you itemized.
Add an Extension for Docking to each run of pedestals joining to a dock, whether inline or perpendicular.
Drawer walls are 0.5-in thick solid birch with English dovetail construction.
Drawer bottoms are 0.3-in thick, dadoed into drawer walls.
Drawer slides are ball bearing, full-extension.
File drawers include a Pendaflex® compatible file hanging system.
Face Locks are included on all drawer and door pedestals, except as noted.
Remove architectural base molding when placing Wall Panels, Towers and Pedestals.
Open Gaps and KneePanels are ordered parametrically. Include width dimension in the Spec Code and price calculation.
Width parameters are shown in brackets; replace the bracketed 'w' with the desired dimension. Example:

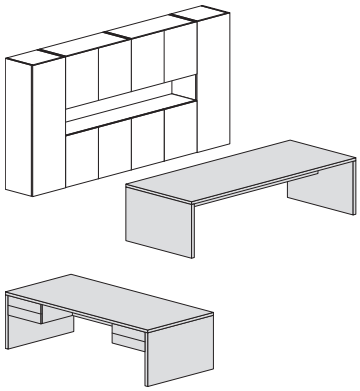

Description	w	d	Spec Code	$ List
C KneePanel-Fixed [w]	[15-54]	0.75	1K[w]	3.6[w]+348
C KneePanel-Fixed 36			1K36	591

L-CONFIGURATIONS

---Extensions (dark gray) are required on each connecting side of a Dock (light gray) when door/drawer pedestals are specified:
Use a 1.25-in Extension when a door/drawer unit abuts a perpendicular door/drawer unit or Finished Back Panel.
No Extension is required along side a shelving unit.
Illustrations below demonstrate a nominal 18-in width; the same logic applies to 24-in width.

! Notes:
Prato Wall Panels are a matrix of panels of assorted materials and sizes, arranged in columns (sets) and rows.
Each Wall Panel has a shelf slot at top and metal trim frame; standard finish is MSBN Satin Brushed Nickel.
Wall Panels in the top (starter) location will have a top cap instead of a shelf slot.
Individual panel heights are modular in cadence. A panel with suffix 2 is double the ht of suffix 1 (i.e.merged pair).
Use parametrics as needed (see Options below) to reconcile widths with overall width of companion cases and tops.
Maximum width on Wall Panels is as listed above and on opposite page; note 96-in dimension above.
Back-painted glass panels available in S.BLK Black or S.BWT White; match colors on special request.
Wood Veneer includes all Wood1 finishes; inquire regarding other species/colors.
Customer walls must be adequately constructed to accept wall hung units.
Wall Panels are designed to mount 0.5-in from the floor; avoid use of baseboards or make flush.

> To Specify Wall Panels:
Order wall panels in vertical sets, specifying each set L to R. All panels within a set must be of the same width.
Determine the ProdNo for each set by selecting the appropriate ProdNo Prefix (1) and appending desired Width. (2)
Specify the panels within a set by listing the desired Spec Code (3) in your description, in top-to-bottom order.
Determine the total price of each set by adding each panel's price to the nominal price for the set.
Panel finish selection, individually or collectively.

+ Options/Parametrics:
Widths: 12-96/na. Replace Product No. width code with actual dimension; use next larger std size for pricing.

DRAWER CONSTRUCTION

A fine point for a quality casegood product is the inner drawer construction. Each TUOHY casegood offers you uncompromised excellence in this area as well. Drawer boxes are constructed with dovetail joinery for maximum durability. The drawer face is mounted separately to this box (i.e., five-sided construction) to maintain integrity.

Drawer bottoms are dadoed on all four sides. Slides for box drawers are rated at 100 pounds per drawer; slides for file drawers are rated at a heavy duty 150 pound load per drawer. All slides have progressive action.

Box drawers have a removable divider, adjustable when depicted (÷). File drawers have suspension rods for filing laterally or front-to-back, as depicted. For Drawers for Lap Area, Drawer Pencil Tray, and Locks: See the Introduction/Terms-Options section of the Master Price List, page 12.

A fine point for a quality casegood product is the inner drawer construction. Each TUOHY casegood offers you uncompromised excellence in this area as well. Drawer boxes are constructed with dovetail joinery for maximum durability. The drawer face is mounted separately to this box (i.e., five-sided construction) to maintain integrity.

Drawer bottoms are dadoed on all four sides. Slides for box drawers are rated at 100 pounds static load capacity; slides for file drawers are rated at a heavy duty 150 static load capacity. All slides are concealed, full extension and soft-close.

Box drawers have a removable divider, adjustable when depicted (÷). File drawers have file frames for filing laterally or front-to-back, as depicted above. For Drawers for Lap Area, Drawer Pencil Tray, and Locks: See the Introduction/Terms-Options section of the Master Price List, page 12.

DRAWER CONSTRUCTION

A fine point for a quality casegood product is the inner drawer construction. Each TUOHY casegood offers you uncompromised excellence in this area as well. Drawer boxes are constructed with dovetail joinery for maximum durability. The drawer face is mounted separately to this box (i.e., five-sided construction) to maintain integrity.

Drawer bottoms are dadoed on all four sides. Slides for box drawers are rated at 100 pounds per drawer; slides for file drawers are rated at a heavy duty 150 pound load per drawer. All slides have progressive action.

Box drawers have a removable divider, adjustable when depicted (÷). File drawers have suspension rods for filing laterally or front-to-back, as depicted. For Drawers for Lap Area, Drawer Pencil Tray, and Locks: See the Introduction/Terms-Options section of the Master Price List, page 12.

OPTIONS

Wood Species/Finish

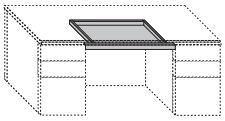

Units can be specified in standard TUOHY Wood Finishes, Solid Colors, or any combination thereof. Exotic veneers and sketch-face patterns may be applied on a quote basis.

Parametrics

Xpect products are parametrically specified. You are not restricted to the sizes listed in this price list. Call out the nominal dimension that you desire, TUOHY will calculate the appropriate edge overhangs based upon the style you select. There is no surcharge, just use the price for the next larger unit.

Example: LAAA-76-34 is a 76 wide x 34 deep rectangular 2 box/file-2 box/file desk. The price would be the same as a LAAA-78-36, which is the next size larger in both width and depth.

The following dimensions are fixed and cannot be changed:
Pedestal heights are 28.4 inches tall
Drawer style pedestals are available in 18, 30, 36 inches widths only.

Ordering Gallery Modules:

Choose the Gallery Shell size desired from each of the listings above and on the opposite page; a shell is comprised of a top and a 42h panel. Note the ProductNo and List $ that correspond to the depth and base treatment desired. Follow the ProductNo column down until you have located the first (left-most) end panel or pedestal desired, then append the letter/number code to the original item number and add the price to the original price. Continue adding modules in this manner until your unit is complete.

The overall unit width will be the accumulated widths of all modules chosen; this dimension cannot be greater than your shell width. The overall price will be the accumulated prices and the final item number will be the original number plus all of the letter codes for the pedestals added.

Prima Collection is a highly flexible system of furniture components that combine to create an extensive, elegant and creative series of reception and administrative assistant workstations.

Simply configure desk, runoff, bridge and credenza shells to form in-line, L-shaped and U-shaped layouts. Add pedestals and situate galleries and/or surround panels as needed.

You have considerable flexibility in the scale and placement of these elements. Surround panels and gallery fronts may be defined in whatever segmented matrix and material you desire.

In addition to what is presented here, Prima has been designed to accept a nearly limitless range of customers' architectural and interior materials and finishes. Use Prima for maximum impact in reception areas, but with considerably less rigor and expense than custom millwork solutions.

Width & Placement Relative to Shell

Function and form are achieved by your relative placement of surround panels and galleries on the casegood shells, whether centered, shifted left or shifted right by any dimension you desire.

Surround Panels are 2 inches thick, modular, and specified in left-to-right approach sequence at widths from 21 inches to 124 inches. Each surround panel is one segment wide by up to three segments tall (see 1x1, 1x2 and 1x3 at right). Surround panels may abut galleries.

Galleries are single mass, 10.8 inches deep, specified according to the desired matrix layout as shown at right. Galleries receive a transaction top and backsplash or tackable surface, all of which are specified separately.

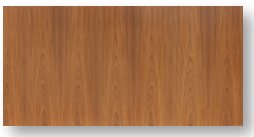

All panels and galleries have a mitered/quirk detail at corners to perpendicular runs.

\+ Options:
Face Locks are included on all pedestals. For no locks, specify Option NL.
Wood offering includes all Wood1 finishes; inquire regarding other species/colors.

! Notes:
Metal toeboard finish is MSBN Satin Brushed Nickel (~MBN).
Gallery Shells may be deployed as desk or runoff units.
Gallery 2File, 2Box/File and 4Box pedestals have pull hardware (specify finish—see above) unless used next to a kneehole, in which case a continously-shaped vertical edge will be used.
Gallery pedestals have unfinished backs.
Each Gallery End Panel adds 2-in to the overall width of the Gallery Shell.
Pedestals used on Gallery shells with pencil stops are shortened by 2.5-in to allow for cord access at rear.
Gallery shells with pencil stop have a 2.5-in cord access drop behind the pencil stop. If a 1.3-inch backsplash is used then 1.3-in is available for cord access.
Shelving pedestals have metal shelves and vertical dividers (the latter on 30 and 36w units).
Use Drawer Offset Extensions when placing drawers next to an extended Gallery End Panel.

DRAWER CONSTRUCTION

A fine point for a quality casegood product is the inner drawer construction. Each TUOHY casegood offers you uncompromised excellence in this area as well. Drawer boxes are constructed with dovetail joinery for maximum durability. The drawer face is mounted separately to this box (i.e., five-sided construction) to maintain integrity.

Drawer bottoms are dadoed on all four sides. Slides for box drawers are rated at 100 pounds per drawer; slides for file drawers are rated at a heavy duty 150 pound load per drawer. All slides have progressive action.

Box drawers have a removable divider, adjustable when depicted (÷). File drawers have suspension rods for filing laterally or front-to-back, as depicted. For Drawers for Lap Area, Drawer Pencil Tray, and Locks: See the Introduction/Terms-Options section of the Master Price List, page 12.

How to Order Credenzas and Buffet Credenzas:

Choose the Credenza or Buffet format desired from each of the four listings above and on the opposite page. Note the ProdNo and List $ that correspond to the depth and back (finished/unfinished) desired. Follow the ProdNo column down until you have located the first (left-most) pedestal desired, then append the letter/number code to the original item number and add the price to the original price. Continue adding pedestals in this manner until your unit is complete.
The overall credenza or buffet width will be the accumulated widths of all pedestals chosen; the overall price will be the accumulated prices and the final item number will be the original number plus all of the letter codes for the pedestals added. The maximum running width is 120 inches; units over 72 inches ship in two sections and require assembly. Tops are finished. See also the information on the following page.

Using the Pricing Guide

The Univers Collection offers an à la carte method of selecting the table that best fits your requirements. This format offers all the flexibility of customization without sacrificing the advantages of standard product pricing, construction and lead times.

Specify Univers tables by product number and finish. Use **Base Styles** (p.CV4) to choose your base, and **Table Index by Edge Style** (p.CV2) to locate your pricing chart.

Product numbers are simply a combination of Edge, Top, and Base codes, as demonstrated below and at right. For example, the product number for a **90w 48d** inch rectangle top with a **Bevel Self Edge 1.5th** and **Plinth** bases, is determined by combining:

Edge Code: UBS1W...
Top Code: ...R6...
Base Code: ...P

Product Number = **UBS1WR6P**

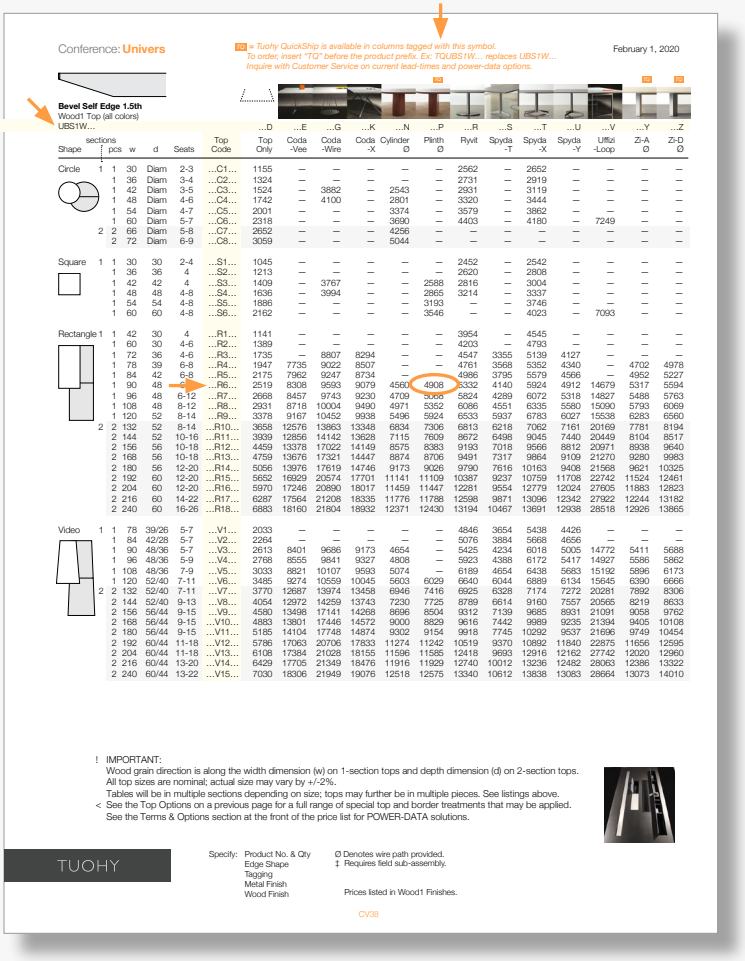

To determine the list price, read across at your Top Code and down at the Base Code.

List price for UBS1AR6E = **$18700**

Note that tables of this edge and base style are available on our ***Tuohy QuickShip*** program because the column heading—Plinth, in this example—shows the *TQ* symbol: TQ

To order on ***QuickShip***, insert "TQ" before the product prefix. Ex: **TQUBS1WR6P**… replaces **UBS1WR6P**…

Inquire with Customer Service on current lead-times and power-data options.

Conference: **Univers**

TQ = Tuohy QuickShip is available in columns tagged with this symbol.
To order, insert "TQ" before the product prefix. Ex: TQUBS1W… replaces UBS1W…
Inquire with Customer Service on current lead-times and power-data options.

PRICING & SPECIFICATION GUIDE

TUOHY

SPECIFICATION INFORMATION

Fabric and leather upholsteries are graded into all pricing for seating products. Customers may choose from TUOHY Upholstery Lines, Partnership Programs, and, Customer's Own Material (COM) or Customer's Own Leather (COL).

TUOHY Standard Upholstery Lines: Use the following pricing grades for standard upholstery offerings:

Leathers:	Lena	L1
Faux-Leather:	Silex	F3

Upholstery Partnership Programs: TUOHY has partnership programs with Designtex, KnollTextiles, and Maharam such that their approved upholstery products are graded into TUOHY's pricing. Please see grading information at www.tuohyfurniture.com/reference/upholstery.htm. Additional programs with other upholstery suppliers will be announced as they become available.

COM/COL: TUOHY accepts COM fabrics and COL leathers for consideration on its products. To verify suitability of your selection, inquire with Customer Service for information from our Fabric Analysis Program. Upholsteries not listed in this program must be submitted for approval prior to acceptance of an order; submit a 12 x 12 sample prior to entering your order. Your purchase order must include an upholstery specification that has been approved by TUOHY.

All COM/COL requirements are based on whole pieces of material; split shipments are not allowed. We are not responsible for COM/COL upholstery wear, defects, or its appropriateness.

COL leather requirements are listed in square feet and based on hides that are 40 square feet or larger. For hides below 40 square feet add 15% to the footage requirements; for calf hides below 30 square feet add 30% to the footage requirements.

Our pricing includes labor for applying upholstery and, unless noted otherwise, is based on applying only one colorway per item of furniture, with no specific relationship between the pattern or weave of the upholstery material and the configuration of the item of furniture.

A surcharge not to exceed 15% of the COM price may be added when vinyl is used and/or multiple upholsteries or colorways are applied to the same product. These circumstances may create the need for additional yardage; contact Customer Service for assistance prior to ordering.

If additional labor is required because of unique characteristics of the fabric, a special quote will be required.

Fabric/vinyl yardage requirements and leather square footage requirements are shown throughout this price list. Fabric and vinyl requirements are based on upholstering one unit, using a single, continuous 54-in wide material, off-the-roll, with minimal (under 2-in) repeat in any direction. Inquire about lower per-unit yardage requirements on orders of more than one unit.

Verify whether individual product listings in this price schedule call for greater allowances for this additional yardage.

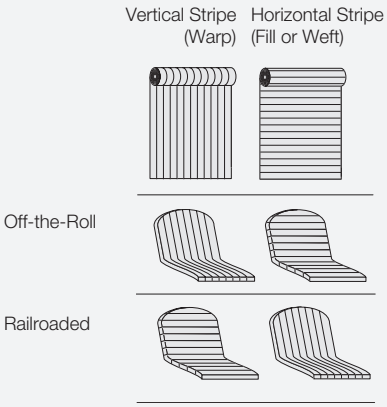

Patterned fabrics and vinyls may be railroaded on request but are subject to a surcharge and/or additional yardage requirements.

Seams will be required when the product application width is greater than the usable roll width, whether off-the-roll or railroaded.

Additional yardage may be required if roll width is less than 54 inches and/or a pattern requires matching. Table 2 (below) charts horizontal + vertical repeat and roll width, both in inches. Note that this is a generalized guide only. Please confirm with our Customer Service Department on specifics regarding selections for your project. Changes in yardage requirement will affect grading in TUOHY Upholstery Partnership Programs.

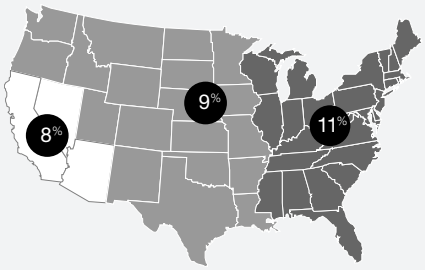

Fire Rating: All upholstered pieces pass Cal-117. For Cal-133 or Boston Fire, contact Customer Service at (507) 867-4280.

Table 1: Pattern Direction

Freight/Handling Fees: Charged on a regional basis, as shown on the map below.These fees are pre-calculated and prepaid by TUOHY and added to the invoice at the time of shipment.

Should additional charges be incurred by TUOHY due to delivery issues (non-dock, re-delivery, etc.) after initial billing, the customer may be liable for those additional charges.

Alaska, Hawaii, Canada, Mexico: Quote required
GSA: Reduce rates above by 2 percentage points.
