

# Kredens

Credenzas & Benches

TUOHY

The Kredens collection of credenzas and benches brings effortless elegance to executive boardrooms and high-end meeting spaces. With a minimal aesthetic and versatile function, the pieces in this collection elevate a setting's look while offering an array of storage options.

### Infinite Design Flexibility

The Kredens collection offers an array of possibilities for adding beautiful, functional storage to a space. Options include a bench as well as low-, standard-, and buffet-height credenzas, which can be freestanding with a slim-blade base or wall-mounted. Every detail can be tailored, including lengths up to 10 feet, a wide choice of storage modules, standard and custom veneer finishes, and a variety of top materials including veneer, stone, quartz, marble, glass, and more. A variety of pulls offers even more opportunity for customization.

**Multifunctional Details**

More than simple storage, Kredens credenzas and benches are designed to serve many purposes. The bench can be outfitted with a cushioned tops for additional seating, while optional inserts in the credenza keep cutlery, coffee pods, and other essentials neatly organized. Custom features, such as a refrigeration unit, elevate the credenza into a hospitality hub.
