

Melvin

Stools

TUOHY

With a small footprint and streamlined silhouette, the Melvin Stool is ideal for tight spaces such as event suites, hospitality areas, and education settings. Thoughtful details, including a hidden swivel and warm wood accents, elevate the look of this simple yet elegant stool.

Designed for Comfort

Available with or without a back, the Melvin stool has several comfort-enhancing design elements. Its optional back is gently sloped to provide support, and both the seat and back are fully upholstered. The angle of the stool's back and its 360-degree swivel make it easy for people to enter and exit the stool.

Options for Creativity

Curate a bespoke aesthetic with the Melvin Stool's material and finish options. The wood base, available in counter, bar, and ADA height, has a refined, seamless appearance and can be painted in a variety of colors or metallic finishes. You can also specify a wood base with contrasting painted foot ring or paint the base and add a touch of wood just below the seat.
