Credenza

TUOHY

Add versatile, sophisticated storage to the workplace with the Montrose Credenza. Thoughtfully designed to complement the Montrose Table, this credenza features rounded ends that soften the aesthetic in meeting spaces.

**Designed for Durability**

Through superior engineering and manufacturing, the Montrose Credenza achieves the highest level of quality and craftsmanship. Its drawers feature solid wood laminated English dovetail joinery and four-sided dado bottoms for enhanced load-bearing capability. Soft-close mechanisms on doors and drawers ensure smooth, quiet use, while a protective edge around the top helps guard against wear from chair arms and mobile carts.

**Tailored to Your Needs**

Like all pieces in the Montrose Collection, which includes tables and lecterns, the Montrose Credenza is highly customizable to meet your unique design goals. Optional features include refrigerator units, custom drawer dividers, and integrated waste and recycling bins. This design flexibility extends to form and finish, too. Choose between round or straight back ends, and specify tops in veneer, stone, marble, solid surface, and more.
