

Seaton

Tables

TUOHY

Refined design paired with a high level of function and versatility make the Seaton Table Collection ideal for collaborative spaces, meeting rooms, dining and hospitality areas, and more. A layered top and simple tube base define the understated aesthetic of these tables, which are available in a variety of options including occasional, seated, counter and bar height.

Curate the Perfect Look

We offer Seaton Tables in a wide array of materials and combinations to suit your design needs. Choose from rectangular or round shapes in veneer, stone, solid surface, marble, glass, quartz, or other custom materials. Tops may feature a single or layered pairing of materials to create a unique look, along with options for distinctive edge profiles.

Engineered for Integrated Power

The clean lines and simple silhouette of Seaton Tables are matched by intelligent design. The sleek tube base has an important function—concealing power routing, with cords running through the leg and into a magnetic channel that leads to the power source. This hidden integration allows for seamless connectivity while enhancing the tables' minimalist appeal.
