Using the Pricing Guide

The Univers Collection offers an à la carte method of selecting the table that best fits your requirements. This format offers all the flexibility of customization without sacrificing the advantages of standard product pricing, construction and lead times.

Specify Univers tables by product number and finish. Use **Base Styles** (p.CV4) to choose your base, and **Table Index by Edge Style** (p.CV2) to locate your pricing chart.

Product numbers are simply a combination of Edge, Top, and Base codes, as demonstrated below and at right. For example, the product number for a **90w 48d** inch rectangle top with a **Bevel Self Edge 1.5th** and **Plinth** bases, is determined by combining:

Edge Code: **UBS1W...**
 Top Code: **...R6...**
 Base Code: **...P**

Product Number = **UBS1WR6P**

To determine the list price, read across at your Top Code and down at the Base Code.

List price for UBS1AR6E = **\$18700**

Note that tables of this edge and base style are available on our **Tuohy QuickShip** program because the column heading—Plinth, in this example—shows the **TQ** symbol:

To order on **QuickShip**, insert "TQ" before the product prefix. Ex: **TQUBS1WR6P...** replaces **UBS1WR6P...**

Inquire with Customer Service on current lead-times and power-data options.

Conference: **Univers** February 1, 2020

Tuohy QuickShip is available in columns tagged with this symbol. To order, insert "TQ" before the product prefix. Ex: TQUBS1W... replaces UBS1W... Inquire with Customer Service on current lead-times and power-data options.
