DRAWER CONSTRUCTION

A fine point for a quality casegood product is the inner drawer construction. Each TUOHY casegood offers you uncompromised excellence in this area as well. Drawer boxes are constructed with dovetail joinery for maximum durability. The drawer face is mounted separately to this box (i.e., five-sided construction) to maintain integrity.

Drawer bottoms are dadoed on all four sides. Slides for box drawers are rated at 100 pounds per drawer; slides for file drawers are rated at a heavy duty 150 pound load per drawer. All slides have progressive action.

Box drawers have a removable divider, adjustable when depicted (÷). File drawers have suspension rods for filing laterally or front-to-back, as depicted. For Drawers for Lap Area, Drawer Pencil Tray, and Locks: See the Introduction/Terms-Options section of the Master Price List, page 12.

Ordering Credenza/Half-Panel Units:

Note the ProductNo and List $ that correspond to an Unfinished or Finished Back Panel. Follow the ProductNo column down until you have located the first (left-most) end panel or pedestal desired, then append the letter/number code to the original item number and add the price to the original price. Continue adding modules in this manner until your unit is complete.

The overall unit width will be the accumulated widths of all modules chosen. The overall price will be the accumulated prices and the final item number will be the original number plus all of the letter codes for the pedestals added. Maximum width under one top is 120 inches. Components are modular and may require field assembly. Finished backs may be segmented; inquire if a continuous back is required.
Verify all logistical dimensions (e.g., elevators, corridors and doorways) prior to ordering large units.

How to Order Pedestals:

Choose the pedestal format desired from each of the listings above and on the opposite page. Note the ProductNo. and List $ that correspond to the depth and back (finished/unfinished) desired. Follow the ProductNo. column down until you have located the first (left-most) pedestal desired, then append the letter/number code to the original item number and add the price to the original price. Continue adding pedestals in this manner until your unit is complete.

The overall pedestal width will be the accumulated widths of all pedestals chosen; the overall price will be the accumulated prices and the final item number will be the original number plus all of the letter codes for the pedestals added. Maximum width under one top is 120 inches. Components are modular and may require field assembly. Finished backs may be segmented; inquire if a continuous back is required. Verify all logistical dimensions (e.g., elevators, corridors and doorways) prior to ordering large units. Tops are to be ordered separately.

See also the information on the following pages.

! Notes—for all Pedestals on this and opposite page.
Maximum width under one top is 120 inches; components are modular and may require field assembly.
Finished backs may be segmented; inquire if a continuous back is required.
Verify all logistical dimensions (e.g., elevators, corridors and doorways) prior to ordering large units.
Prices shown here regard Wood1 finishes; note surcharges for Wood2 finish.
Geneva pedestals are not modular. Faces and back panels are each made from single pieces of veneer to guarantee consistency of grain and color.
Pedestals have a kerf detail along edges and vertical corners.
All pedestals include locks where applicable.

\+ Options:
For drawers/cabinets with Silex (faux leather), specify Option LF and add $960 per drawer/door face.
For drawers/cabinets with Stitched Silex, specify Option SF and add $1306 per drawer/door face.

To Specify Pedestals

1 Construct the Product Number and List Price:
Choose the format desired and note the starting Prefix Code and List $ for the depth required.
Specify pedestal sequence L to R by adding the Ped Code and $ for the depth required to the Prefix Code and List $.
The overall width is the sum of the pedestal widths you have added (120 is maximum).

2 Required Specifications
Product number and price.
Quantity and Tagging information.
Wood finish selection.
Silex color selection if applicable.

3 Options, as listed above.

\+ Options:
For Silex-wrapped doors, specify Opton LF and add $960 per door.
For StitchedSilex-wrapped doors, specify Opton SF and add $1306 per door.

! Notes:
Units have a 3 grade top surface.
Units have an unfinished back and are designed to go up against a wall.
Units are available with either a COM fabric panel or wood panel. These panels are removable and are used to cover cord access.
The back of the units have a cord access cutout located 2.5 up from the bottom.
The removable back panel has 0.5 clearance at the bottom and 0.75 clearance at the top.

Gallery Ordering Information

Choose the Gallery Shell size desired from each of the listings above and on the opposite page; a shell is comprised of a top and a 42h panel. Note the ItemNo and List $ that correspond to the depth and base treatment desired. Follow the ItemNo column down until you have located the first (left-most) end panel or pedestal desired, then append the letter/number code to the original item number and add the price to the original price. Continue adding modules in this manner until your unit is complete.

The overall unit width will be the accumulated widths of all modules chosen; this dimension cannot be greater than your shell width. The overall price will be the accumulated prices and the final item number will be the original number plus all of the letter codes for the pedestals added.
