

Nora

Seating

TUOHY

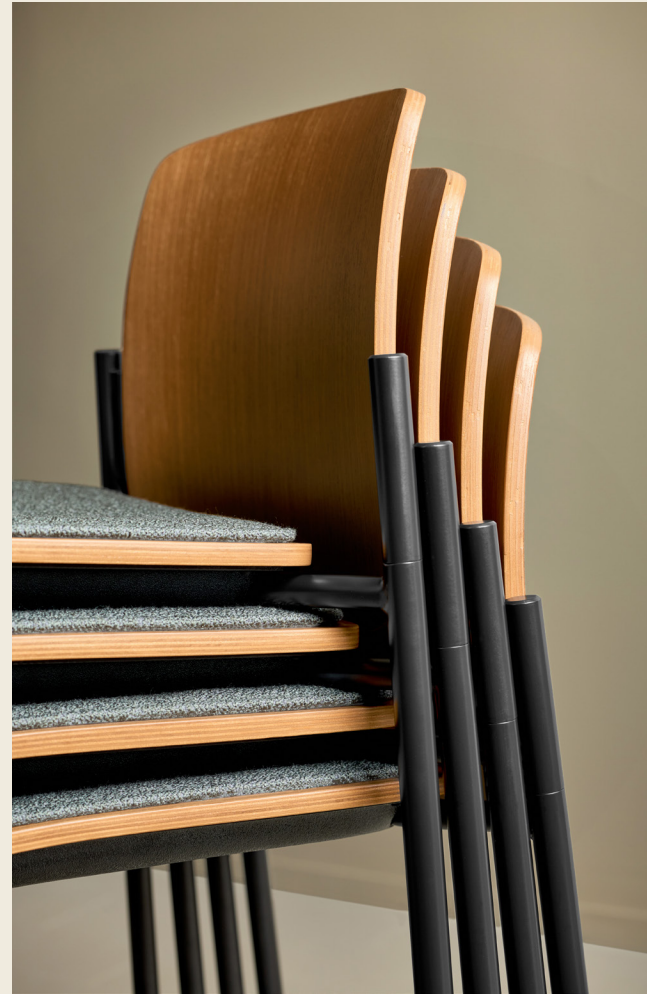

Lightweight and versatile, Nora Seating is a collection of stools and chairs that are ideal for work, learning, and hospitality environments. The streamlined design includes a refined molded plywood seat complemented by a lightweight yet durable metal frame. The stools and chairs are also stackable, making them essential for spaces where seating must be stored or reconfigured.

Flexibly Designed

Create a consistent aesthetic throughout a space with counter-, seated-, and ADA-height stools and chairs. Choose from walnut, maple, or oak—available in a custom stain—for the molded plywood seats and backs. An optional upholstered seat pad is also available.

Simply Stackable

Nora Seating is purposely designed for easy stacking, eliminating the need to lift each chair completely above the one below. All chair heights stack up for four high, so you can quickly move and store them.
