

Pleat

Seating

TUOHY

Award-winning Pleat brings distinctive style and adaptability to any environment. Elevated details such as the chair's pleated back, along with a variety of base options, make Pleat an ideal seating choice for conference rooms, private offices, lobbies, hospitality spaces and more.

Elegant Details

The chair's fully upholstered molded bucket shell features a signature pleat detail at the center back. For a distinctive aesthetic, mix materials between the outer shell and inner seat and back.

Stylish, Comfortable Base Options

A wide range of base options—wood legs, wire frame, disk, 4-star with foot pads, and a 5-star base with casters—ensures that Pleat suits both formal and casual settings. The 5-star base also offers height adjustability and a low-profile swivel-tilt mechanism that adds ergonomic comfort to the design.

Abundant Material and Finish Options

To create a unique look, specify upholstery in leather, faux leather, or a wide variety of upholstery options. For the wood base, choose from solid maple or walnut in an array of stain colors.
